

## Your Source for Engineered Process Solutions

*SunSource has built a solid reputation as North America's leading supplier of filtration and many other types of fluid processing solutions. In order to better serve our customers within the heavy industrial, food processing, power generation, and pharmaceutical sectors, SunSource has added in the necessary fabrication and assembly resources to provide you with a complete system.*

If your liquid processing application demands a "start to finish" solution, SunSource has the expertise to take the responsibility off of your shoulders, and build a complete system for your application. We offer custom solutions that not only remove solids from a fluid stream but can also help improve overall process performance.

Typical process assemblies handle flow rates ranging between 10-2,000 gpm and include the following:

- ✓ Duplex filter housings with skid
- ✓ Custom bag and cartridge housings
- ✓ Pump, motor, filter packages, portable or on a skid
- ✓ Assemblies for upstream equipment protection

*SunSource can provide custom duplex filter skids for applications in sanitary environments. Contact SunSource to review your process application and determine a potential solution.*

*A duplex filter system that shifts between housings based on differential pressure. Utilizes cartridge technology with additional surface area to minimize your maintenance costs*

SunSource has the experience and resources to tailor a specific solution for your process. Our engineers have expertise working in many applications such as:

- ✓ Coolants
- ✓ Coatings/Paints and Resins
- ✓ Hydraulic Oil
- ✓ Wastewater
- ✓ Solvent Recovery
- ✓ Chemical Processing
- ✓ Chiller Systems
- ✓ Fuel Transfer
- ✓ Parts Washing
- ✓ Cooling Towers
- ✓ Sanitary Environments

You will feel very confident throughout the design process, because of how SunSource approaches our projects;

A SunSource Turn-Key System Includes;

- ✓ Initial review(s) of project on-site
- ✓ Statement of work to ensure a complete design and review process
- ✓ Thorough documentation and customer approved final system drawings
- ✓ Complete system design and application support
- ✓ Run-off of the system to insure performance
- ✓ Field installation support and operator/maintenance training

### **SunSource is your partner for assembled process solutions!**

We are dedicated to providing you with the best systems, the best engineers, and best customer support to help make your production process more efficient. Regardless of your industry, if you have a process related challenge we want to look at it.

## The company behind the SunSource Advantage

As a national distributor with local presence, SunSource has a unique and dominant position as a full-service resource for the industrial and mobile fluid power industry. We distribute a broad range of components, but SunSource is much more than a distributor just supplying fluid power products. We realize that our customers need more. Along with high quality products, we provide a commitment to high quality customer service and technically sound, cost-effective solutions.

The decisions you make every day affect your company's bottom line, so finding the right partners is a top priority. When your success depends on the success of others, it becomes critical to develop strong, lasting partnerships with suppliers you can trust to provide the support your company needs for a competitive advantage. Dependable, knowledgeable, efficient service helps you focus your energy on activities that help sell your product – and help your company succeed.
