Your Time is Money!

Are your machine "Cycle Times" slowing down, do you have a catastrophic failure or just a chronic leak? SunSource remanufactured excavator pumps and motors are installation ready, so your repair delay is limited to the time it takes to change the component. Just follow the easy-to-read "Start-Up" instructions included with each product, and you'll be up and running again in no time!

You already know that SunSource leads the industry with products that deliver superior performance and outstanding reliability. We bring that same commitment to our Reman Program for Excavator pumps and motors because your productivity is our priority. Contact us and we'll get you up and running smoothly right away. Our commitment to helping you achieve lower operating costs is a cornerstone of the SunSource Advantage.

Why buy a "Might Fit", when you can get the "Right Fit"?

We'll Tell You Why Your Excavator Component Failed

This will help you determine the extent of the damage to your excavator and what corrective action needs to be done.

We'll Keep You on the Job

When your equipment is working hard everyday to help you turn a profit, there's never a good time to replace hydraulic pumps and motors. We'll take the guesswork out of your decision with a high-performance, lower cost remanufactured unit available from SunSource.

Competitively Priced & Warranteed

Specializing in quality economical excavator pumps, swing motors, and travel motors. SunSource will substantially decrease your equipment's maintenance costs. We will help you protect your investment by backing your purchase with a full one-year warranty.

Program Highlights

- Remanufactured Pumps and Motors In Stock and Ready to Exchange
- Units Available for Immediate, Same-Day Shipping
- Service and Repair Specialists Available for Troubleshooting
- Detailed Failure Analysis Available Upon Request
- Full One (1) Year Warranty on all Parts and Workmanship

Field Support & Troubleshooting

SunSource Hydraulic Service & Repair Centers provide qualified specialists backed by our comprehensive engineering support to help you improve your equipment performance. Redesigns and retrofit solutions are one way that SunSource helps to increase service life while reducing operating costs.

Customer Training & Problem Solving

SunSource Hydraulic Service & Repair Centers train thousands of contractors, equipment superintendents, and mechanics at our Service and Troubleshooting Seminars. The training seminars provide information on the latest maintenance practices to ensure that your maintenance team keeps your equipment on the job.

24/7 Tech Support Hotline

The SunSource Technical Support Hotline is available to our customers 24 hours a day, 7 days a week. Qualified service and repair specialists are eager to help you improve your equipment's performance. No other service company has the expertise in upgrading yesterday's excavator with today's technology.

Excavator Reman Program

Comprehensive Testing is where SunSource Excels

Your excavator was designed to run at peak horsepower, that's why SunSource has taken the time to research the many different excavator models. We have developed an extensive SunSource "Test Library" on many Excavator hydraulic pumps and motors. You will use your excavator with confidence knowing that each component is fully remanufactured and performance tested to meet factory new specifications with genuine parts.

Data Recorder

Pump HP Curve

Test Criteria

With strict attention to machine HP and performance data, your component is matched to your excavator, rarely needing additional adjustment on the machine. Our test equipment will document and calibrate the settings on our unique data recorder so we ensure your remanufactured component matches the machines specifications. We also provide a complete "Test Report" for each remanufactured unit, so that you know you are receiving a reliable, field ready unit.

The Company Behind the SunSource Advantage

As a national distributor with local presence, SunSource has a unique and dominant position as a full-service resource for the industrial and mobile fluid power industry. We distribute a broad range of components, but SunSource is much more than a distributor just supplying fluid power products. We realize that our customers need more. Along with high quality products, we provide a commitment to high quality customer service and technically sound, cost-effective solutions.

The decisions you make every day affect your company's bottom line, so finding the right partners is a top priority. When your success depends on the success of others, it becomes critical to develop strong, lasting partnerships with suppliers you can trust to provide the support your company needs for a competitive advantage. Dependable, knowledgeable, efficient service helps you focus your energy on activities that help sell your product – and help your company succeed.
